👜 EXPERIENCE

MICROFINANCE BANKING PROJECT

AT ACE-OJT TRAINING

This group Mini-MFI-Banking project uses Spring Boot framework, Thymeleaf, Bootstrap, Spring Data JPA, MySQL Database and Spring Security. It also includes customized credit scoring. There are loan account for recording money, saving account for customer's saving money and current account for depositing and withdrawing. And also we use secure security system and role classification system. It is nearly similar to the real world project of microfinance banking sector because our supervisor are from ACE-BANKING com.
